*Rite Aid | Jul.2014-Apr.2017*

- Completed Management duties such as opening and closing the store.
- Handled money in various forms such as verifying deposits, taking them to the bank, counting the safe, reconciling registers, and cash audits.
- Supervising teams between 2 and 5, and ensuring completion of daily tasks.
- Provided training to new associates on duties such as operating the cash register.
- Managed overstocked and floor merchandise.

## APPLICATIONS

### 710

<https://github.com/NikolaCop/710>

710 is a personal auto maintenance app that myself and 4 others worked on over 2 weeks, where I served as the Product Owner. We utilized Figma to create a prototype, and Vue 3 to create the application. We also used various Scrum methods including routine stand ups to stay on track.

### BUGFINDER

<https://github.com/NikolaCop/bugfinder.server>

Bugfinder is a Full Stack application made utilizing Vue 3. Bugfinder allows users to log various bugs, by opening tickets, and allows for closing them, and adding notes.
